The data will be processed by Aticelca in full compliance with Italian and European privacy regulations.

By filling in the form you agree that your data will be transmitted to Innovhub-Area Carta and Lucense-Centro Qualità Carta to allow the project to be carried out.

Innovhub-Area Carta and Lucense-Centro Qualità Carta will process data in full compliance with Italian and European privacy regulations.

All participants in the initiative are entitled to communicate to third parties their participation in the project and to disseminate general data, results and aggregate data for which participants have given their consent to dissemination.

Participation costs will be invoiced directly by Innovhub-Area Carta and Lucense-Centro Qualità Carta.

The acceptance of the request to participate and the consequent start of the project is subject to the attainment of the minimum number of participants such as to allow an adequate representativeness of the samples and the possibility to produce aggregated data.

Since the number of samples is limited, preference will be given to companies that have already participated in the previous COATING AND METALLIZATIONS RECYCLABILITY PROJECT – 2023.

Note:

(1) This data will be published on Aticelca's website as a participant in the project if you have ticked the consent to disclosure to third parties by Aticelca and the other participants. Even in the absence of consent for publication of the company name to third parties, the company name itself, the name, surname and e-mail address of the reference person will be shared among the participants for the purposes of project execution and participation in meetings.

(2) "Manufacturing companies" are companies producing barrier-coated or metallised paper, paper products with barrier coating or metallisation or companies supplying technology, chemicals or other raw materials for barrier coating or metallisation. This request to participate as Manufacturing company is not binding and it need to be confirmed by signing the offer that the labs will provide at the kick-off of the Project.

(3) This option is precluded for "manufacturing companies". Participation as an "observer" is open to industry associations and organisations, other stakeholders in the paper, printing and converting chain and companies that are not "manufacturing companies". Participation as an "observer" is subject to acceptance by the participants qualified as "manufacturing companies" and at the condition established by the manufacturing companies. This request to participate as Observer is not binding and it need to be confirmed when the conditions will be established.
